3PR^{quad}

3PR^{duo}

Standalone reader systems that integrate multiple 3PR Mini readers into one platform. Each reader operates independently, while all connected devices and results are managed from a single screen.

Developed by **ProGnosis Biotech**, they combine efficient walk-away testing with a minimal, modern design.

3PR DUO

Up to **6 test strips** and **2 cassettes** simultaneously

3PR QUAD

Up to **12 test strips** and **4 cassettes** simultaneously

Multiple
walk-away results

One single
screen
