RAPID TEST

FLU A_B

V1701/V1705/V1720

v5

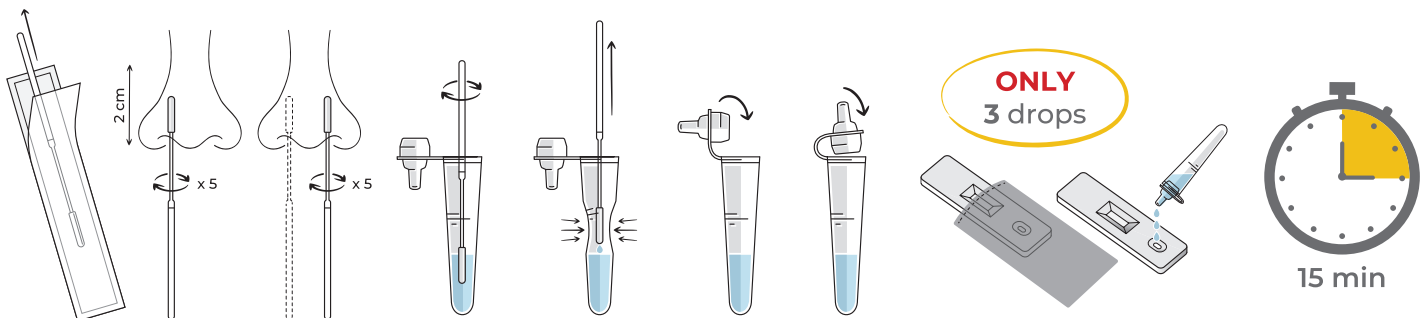

BE SURE BE SPECIFIC

ONE NASAL SWAB
FOR 2 DISEASES
(**FLU A** | **FLU B**)

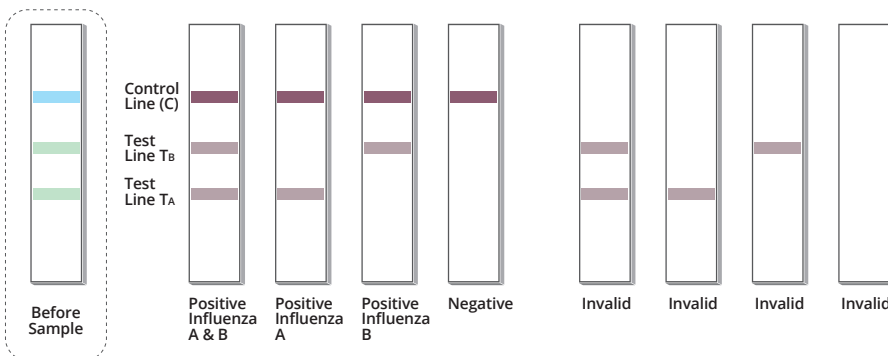

Rapid Test FLU A_B is a qualitative, lateral flow test designed to detect Influenza A and/or B virus antigens in nasal or nasopharyngeal swab specimens directly collected.

- Same protocol of use with the classic rapid test for COVID-19
- Chemical-free sterile swab
- 3 lines cassette
